

Quality Policy Statement

Sundance Multiprocessor Technology Ltd. is a leading company in designing and manufacturing electronics, boards, and software for use in vision, sensor, and robotics systems.

We have enabled our customers to develop and maintain multiple mission-critical applications for projects worldwide.

As part of this, our management system complies with **ISO9001:2015** ensuring that we are constantly striving to develop solutions that fulfil our main quality objectives:

- To manufacture standard and customised products based on customer demand and expectations
- To engineer products/solutions to achieve the most economical implementation without compromising performance.
- To provide a continually improving service to our customers.

Our quality policy is to constantly improve the effectiveness of our quality system and the quality of our products whilst complying with all relevant legislation.

The Managing Director (CEO), *Mr Flemming CHRISTENSEN*, is responsible for implementing this.

I achieve this by establishing, implementing and maintaining a quality management system certified against ISO9001:2015, setting and reviewing measurable quality objectives and ensuring those objectives are met.

I am providing the necessary resources and ensuring responsibilities and authorities are determined and communicated within Sundance, examining the effectiveness of the quality management system and assessing opportunities for its continual improvement and seeking structured quality feedback from our customers.

As part of our ongoing adherence to the ISO9001:2015 standard, we review this policy every six months with the view to ensure that it reflects our approach and direction.

Flemming CHRISTENSEN
