Ainstein celebrates the production of 20,000 US-D1 Radar Altimeters by cutting the price to \$499.

Known for precise altitude measurements and reliability, the US-D1 is ideal for industrial and tactical UAVs, especially for VTOL operations. This milestone reflects Ainstein's dedication to making advanced radar technology more accessible.

Learn more about the benefits of their radar altimeters for drones and UAVs.

"I am extremely satisfied with the service I received from Sundance. I was in desperate need of repairing these cards as there were no replacement parts available in the market. Sundance went above and beyond to ensure that my needs were met and that my electronic cards were fully functional again. I'm sure I will recommend your services and, of course, your products to anyone who needs this kind of service, especially those who are struggling to find replacement parts in this market." - Armando Escorcía
