

RoHS 3 and REACH Compliance Declaration

December 2023

SUNDANCE

Sundance Multiprocessor Technology Limited (Sundance) is dedicated to serving you by providing high quality products that meet environmental regulations which include restriction of hazardous substances (RoHS) and UK Registration, Evaluation, Authorisation & restriction of Chemicals (REACH). We are providing you the following information to assist you in meeting your environmental policies and procedures.

RoHS Compliance

Sundance produces products that are RoHS compliant. RoHS compliant means that the substances restricted by the EU Directive 2015/863 and subsequent amendments of the European Parliament are not contained in a finished product above threshold limits stated below unless the restrictive substance is subject of an exemption contained in the RoHS Directive. Sundance cannot guarantee that inventory held by distributors or other second or third parties are RoHS compliant.

Restricted Substance	Maximum Threshold Limit
Cadmium and its compounds	100 ppm (0.01 weight %)
Mercury and its compounds	1000 ppm (0.1 weight %)
Hexavalent chromium and its compounds	1000 ppm (0.1 weight %)
Lead and its compounds *	1000 ppm (0.1 weight %)
Polybrominated biphenyls (PBB)	1000 ppm (0.1 weight %)
Polybrominated diphenyl ethers (PBDE)	1000 ppm (0.1 weight %)
Decabromine diphenyl ether (DECA BDE)	1000 ppm (0.1 weight %)
Bis(2-ethylhexyl) phthalate (DEHP)**	1000 ppm (0.1 weight %)
Butyl benzyl phthalate (BBP)**	1000 ppm (0.1 weight %)
Dibutyl phthalate (DBP)**	1000 ppm (0.1 weight %)
Diisobutyl phthalate (DIBP)**	1000 ppm (0.1 weight %)

*Except when allowed by the Directive. For example, 3500 ppm in steel, 4000 ppm in aluminium alloys and 40000 ppm in copper alloys.

**The restriction of DEHP, BBP, DBP and DIBP shall apply to medical devices, including in vitro medical devices, and monitoring and control instruments, including industrial monitoring and control instruments, from 22 July 2021.

The compliance of Sundance products with RoHS may be monitored and maintained in one or more of the following ways:

1. Strictly controlling the materials and finishes that are used in our products
2. Periodic analysis, on an as-needed basis, of our products.

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) was first released. This Regulation establishes specific duties and obligations for companies in the European Union (EU) that manufacture or import substances on their own, in preparations, or in articles. Subsequently the UK has left the EU which means that we are now operating under "UK REACH". The rules are broadly the same.

- Under the structure of the UK REACH Regulations, Sundance is a manufacturer and supplier of "articles" to our EU customers. We do not manufacture or supply "substances" or "preparations" and our articles do not involve the "intentional release of substances". Accordingly, we foresee no registration or pre-registration requirement for the products we supply to you.
- Sundance believes that even though UK REACH is an UK regulation, our products are affected in all geographical regions. Therefore, Sundance intends implementing UK REACH on a worldwide basis.
- Sundance is monitoring the substances of very high concern (SVHCs), as defined by UK REACH, in our products. This will be an on-going process since the complete list of SVHCs will be released in stages.
- The customers are encouraged to visit the following site to get the most up to date information on current list of SVHCs under UKREACH:
http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp
- Sundance products (articles) do not contain Substances of Very High Concern (SVHC) above the threshold limit value declared of 0.1% w/w as per **ECHA 14th Jun, 2023 with 235 SVHC**.
- The environmental regulations change constantly. We will try our best to keep you abreast of changes that affect Sundance products by periodically updating this letter.
