SUNDANCE

Meet Sundance at DSEI UK 2025

Sundance will be at [DSEI UK](#) in London, ExCeL, from 9 to 12 September 2025.

We will present a new VNX+ product developed with Etion Create: the **Cheetah Tactical Router**.

The Cheetah is a tactical router built on VNX+. It addresses key challenges in Size, Weight and Power (SWaP) optimisation, while supporting flexibility and long system life in demanding defence and aerospace environments.

Together with Etion Create, we will also show VNX+, OpenVPX and other VITA solutions that reduce SWaP and speed up the design, delivery and deployment of radar, electronic warfare and SIGINT systems.
